Excerpts From Daily Log Notes, L&R Officer, 18 October 1974

- 1. (SECRET)  Hugh Wolfe, Congressional Research Service at the Library of Congress, called to ask who in FBIS could talk to an unnamed member of Congress concerning tape recordings of Ramsey Clark's visit to North Vietnam. He said the Congressman has the transcripts of Clark's remarks, which were delivered to him yesterday by special messenger, but he now wants the tapes so that he can be certain the transcripts are complete. I told him I would look into the matter.
